## WEB MAINTENANCE & HOSTING PACKAGES

### WEB MAINTENANCE.

Web maintenance will involve logging onto client's site, creating a backup file, updating plugins and checking on Wordpress core and theme. The site is then looked over to make sure everything is working properly and will advise on edits/updates as they are noticed. Does NOT include web layout revisions or text/image revisions.

---

**\$25/MO OR \$250/YEAR**

### WEB HOSTING.

Hosting is offered as-is or with maintenance included. Each hosting package includes built-in caching, nightly backups, simple restore, malware monitoring, SSL certificate, an easy-to-use server access, SFTP access, unlimited collaborators and even a staging site. Best part is, billing can either be handled by us or the client.

---

**\$30/MO OR \$330/YEAR**
